

The smallest model in Watec USB camera series is born.

WAT-08U2 (G3.6)

- Adopted 1/2.8" Full HD sensor
- Remarkable micro size 20.5×20.5×30 (mm)
- Focusing ring on the lens
- Wide-angle to telephoto lenses available
- Dedicated connection cables dramatically reduce installation dimensions
- Flexible mounting (mounting screw holes on the front and side of the main unit)
- Low power consumption of 0.75W
